

Our **STEM**ful Scavenger Hunt

Hop until you see something **bright**

Run until you find a **red book**

Tiptoe until you hear an **elephant***

Crawl into a **dark space** and roar

Walk until you smell **yellow flowers**

Skip until you touch something **soft and blue**

Swim around until you touch **water**** from a green bottle

Fly around until you hear **cows mooing**

Jump until you find **two horses*****

March until you taste something **sweet****** from a colorful box

Instructions

Like for any scavenger hunt, hide things around your house and then have your kids look for them. For this specific scavenger hunt they have to do a specific action (run, swim...) until they find that object.

*For the objects that need to be heard hide a speaker connected to your phone and play the sound. If you don't have a speaker think of noises you can hear around the house

**For water you can paint a green water bottle, fill it with water and hide it

*** Or any other number of toys you have

**** Hide a fun treat in a colorful box (or any other container you have) and see their faces light up!

On the next page you will find a blank version of the scavenger hunt that you can fill in with objects that you will find around your house. Have fun creating a scavenger hunt that will have your kids hopping, flying and marching around the house while on the hunt for things they can experience with their 5 senses!

Happy STEM learning!

A **STEM**fulmama
